

San Pellegrino Pass

Route	6,9 km
Duration	2:01 h
Ascent	94 hm
Highest point	1.973 m
Lowest point	1.894 m

After reaching the San Pellegrino Pass, turn left near a ski lift crossing onto a small path that leads to the car park near the Hotel Miralago, where you can leave your car. From there, a wide, mostly flat gravel path leads to the Fuciade basin – an impressive limestone amphitheatre framed by mighty mountain peaks such as Das de l'Om, Jigolé and Das Valfreida. The basin is not only captivating for its scenic beauty, but also for its rare flora, which is found exclusively in this region.

The hike ends at the Fuciade hut. The return journey follows the same route.

Note: The tour is family-friendly and can also be done with a pram. Alternatively, the Fuciade hut can also be reached by horse-drawn carriage for a fee.
